DATE OF II

THIS IS UNEVALUATED INFORMATION

25X1

1. The "Lux" Central Petroleum Storage near Warsaw [Encl. A7] was the main and largest POL storage in Poland. It supplied all of Warsaw and surrounding areas; both military and civilian. The director of the installation was a member of the military.

25X1

[redacted] All employees were civilians, all operations of the installation were mechanically operated. This installation was completed in 1949 or 1950.

2. [redacted] thousands upon thousands of 200 lit. drums over the entire installation which [redacted] contained gas, oil, naphtha, and rock oil. The entire installation was concrete covered. [redacted] 1,000 to 1,500 trucks of different types and sizes entered and left this installation during one day. This installation operated during daylight hours only;

25X1

[redacted] Upon entering the installation one could hear noises from motors and machinery. [redacted] many guards throughout installation area.
